

11. Plan of Treatment

A. Outline Treatment Plan (Figure 5)

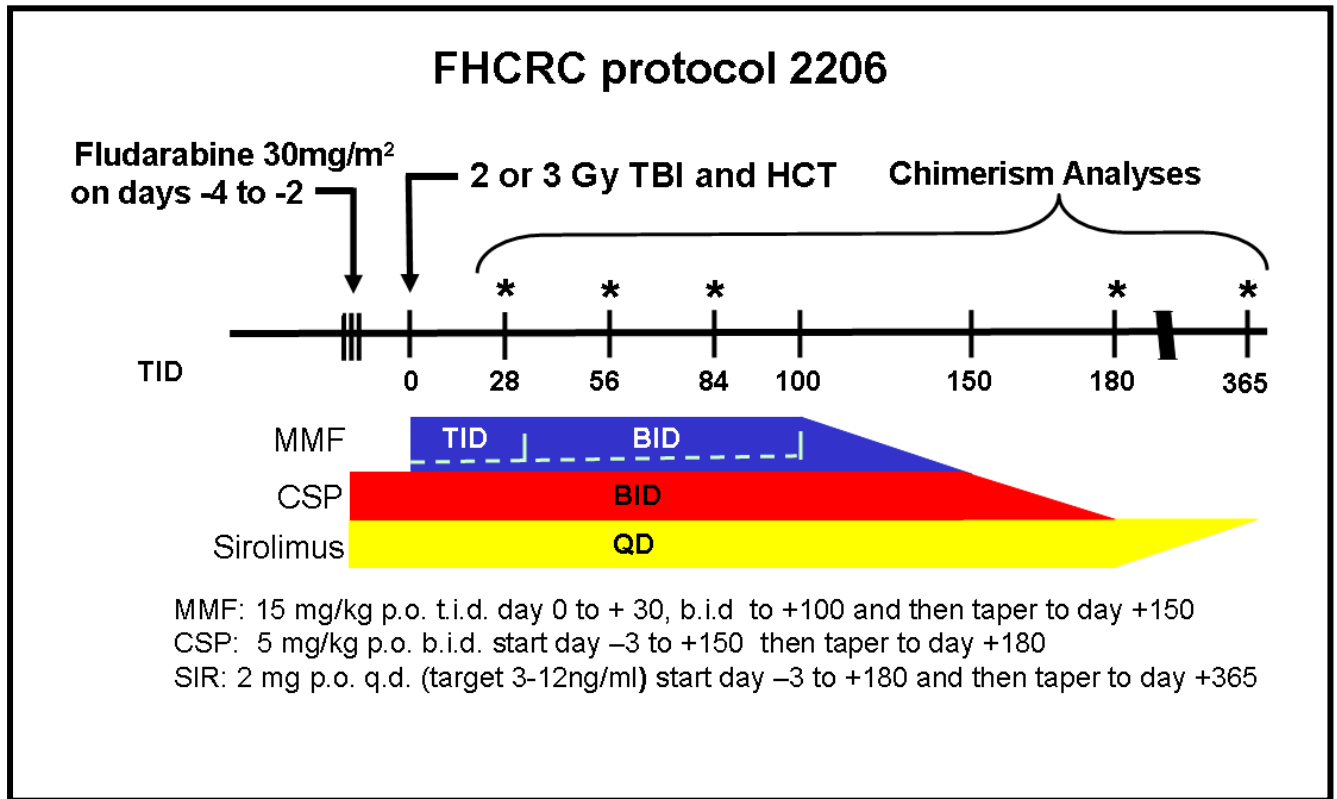

Figure 5. *, evaluation of T-cell chimerism; If T-cell chimerism is $\leq 50\%$ on day +28, then repeat only day +56, +84, +180 and +365. If T-cell chimerism is $> 50\%$ on day +28, then repeat only day +84 and +365. Granulocyte (CD33+) chimerism on day +84 only. Natural Killer cell (CD56+) chimerism will be obtained on day +28. Bone Marrow chimerism will be obtained on day +84 and 365 (See Patients Post-transplant Evaluation For more detail)
