

# A medical elective for non-Danish students

A medical elective for non-Danish students is only possible between the **1<sup>st</sup> of June and the 31<sup>st</sup> of August**.

This is to make sure that everyone at our department has ample opportunity to gain experience and learn.

Please note that:

- The spoken language in the clinic will be in Danish.
- There are a limited number of places, most students register over a year in advance.
- The department is a highly specialized department, exclusively dedicated to abdominal trauma, HPB, upper GI, complex abdominal and liver transplantations.
- We have a close cooperation with the department of pediatric surgery.

## Practicalities:

1. For registration please send an email to our international student coordinator:  
Pieter de Heer  
Email: [Pieter.de.heer@regionh.dk](mailto:Pieter.de.heer@regionh.dk). State the date you had planned to do your elective and you will be informed if this is possible or not.
2. After you received confirmation that there is a place for you by Pieter de Heer, you should contact University of Copenhagen to officially register for the clinical elective. Please forward the confirmation from Pieter de Heer and also attach a letter of enrolment from your home university to [exchange@sund.ku.dk](mailto:exchange@sund.ku.dk)

You are to confirm to the university students service that you have had a confirmation email from Pieter de Heer. Without confirmation by Pieter de Heer it is not possible to register.

State the exact date you will be starting at our department and remember, your elective has to be between **1<sup>st</sup> of June and the 31<sup>st</sup> of August**.

3. After you received a confirmation from the university you should send an email to Gitte Petersen [gitte.pia.petersen@regionh.dk](mailto:gitte.pia.petersen@regionh.dk) our head secretary with Pieter de Heer in the cc.

This is to assure that we reserve a spot for you.
