

SafeBoosC newsletter Feb 2023

Dear investigators

Welcome to the Feb 2023 issue of the SafeBoosC newsletter.

SafeBoosC-III follow-up

No major news, but steady progress in follow-up. More participants have been marked as lost to follow up this month. So far, 43 centers have participants that have reached two years of corrected age, and 36 centers have started data entries in OpenClinica. Data entry has been completed for a total of 268 participants and 251 families have filled out the parental questionnaire. For an overview of data completion, please see figure 1. For an overview of each centre's data completion see table 1.

Figure 1: Overall data completion in the SafeBoosC-III follow up study

Table 1: Open centres, number of eligible participants for two year follow up and data completion for each centre up until the 28th of Feb 2023. Centres highlighted in green indicate that all three tasks (ethics approval, blinding procedure approval and appointment of blinded assessor) have been completed in order to start the follow up study.

Country	Centre	Participants eligible for two year follow up	Completed data entries in OpenClinica	Completed parental questionnaires
Austria	University Hospital Graz	5	2	0
Belgium	UZ Leuven	11	7	6
Belgium	Liege Rocourt	1	1	1
Belgium	Grand Hospital de Charleroi	4	0	4
