

SafeBoosC-IIIv Newsletter

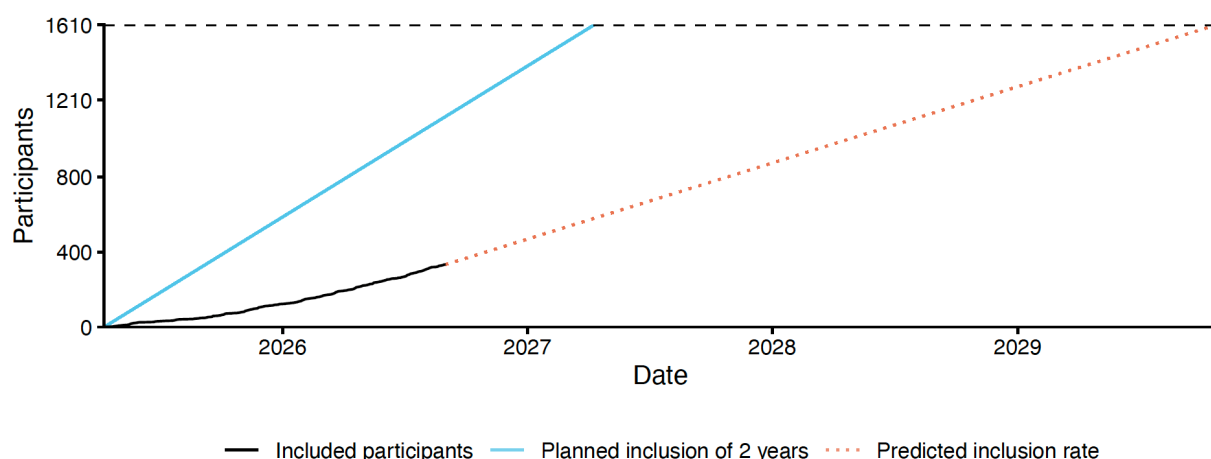

**Randomisations:
331**

Dear Investigators,

This is the SafeBoosC-IIIv newsletter, which we will send out regularly and publish on the website (safeboosc.eu) to keep you continuously updated. We will send the newsletter to all Investigators. Please let us know if you wish to add an email address to the list.

We are pleased to announce that we have currently randomised 331 participants across 22 centres. In August, three new centres began randomisation: the first Chinese centre, Children's Hospital of Fudan University, led by Dr Laishuan Wang; the first Argentinian centre, Hospital Universitario Austral, Pilar, led by Dr Gabriel Musante and Dr Rodolfo Keller; and the first American centre, UT Southwestern Medical Center, Dallas, led by Dr Lina Chalak and Dr Venkat Kakkilaya. We have now opened for randomisation in 12 countries: Spain, Romania, Austria, Greece, the United States, India, Poland, Australia, Argentina, Brazil, Germany, and China.

Please see the current rate of inclusion below:

Overview of the enrollment rate.

Investigator Meeting in 2027

It is our great pleasure to invite you to the SafeBoosC-IIIv Investigator Meeting, which will take place in **Copenhagen, Denmark, on 5–6 April 2027**. The meeting will provide an opportunity to bring together investigators from around the world to share experiences, discuss the progress of the trial, and prepare for the next phase of the trial. Later this week, we will send an official invitation with further information. We very much hope that you will be able to join us in Copenhagen. We look forward to an engaging and productive meeting.

New substudy: Cardiovascular interventions

The third SafeBoosC-IIIv substudy has been implemented in the SafeBoosC-IIIv eCRF: *Effect of cerebral NIRS monitoring in ventilated neonates on the frequency of early cardiovascular*

intervention – initiated by Dr Kosmas Sarafidis. Please find the protocol attached. We are pleased to see the interest and participation in the other [substudies](#) and would encourage you to consider participation in the new substudy as well. Please email caroline.kamp@ctu.dk if you would like to participate in the new substudy. Participation will apply only to future randomisations.

Principal Investigator status

In total, 28 centres have completed all the required preparatory steps and are ready for randomisation. Overall, we are in contact with almost 80 centres from 22 countries. Please see the attached list for the latest progress from all centres and let us know if you have any updates.

Please contact us if you have any questions about the process. We are also available for online meetings to support you in the process.

Best wishes,
Caroline, Johanne, and Janus

Country	Centre	Ethics approval	Signed collaboration agreement	Approved blinding procedure	Local monitoring initiation visit	Delegation log	Randomisations
Argentina	Hospital Universitario Austral, Pilar						1
Australia	Grace Centre for Newborn Intensive Care in The Children's Hospital at Westmead						1
Austria	University Hospital Graz, Graz						5
Austria	Department of Pediatrics II, Medical University of Innsbruck, Innsbruck						18
Belgium	University Hospital Leuven, Leuven						
Brazil	Hospital de Clínicas de Porto Alegre, Universidade Federal do Rio Grande do Sul						
Brazil	Hospital São Paulo / Escola Paulista de Medicina, São Paulo
