

# SafeBoosC-IIIv Newsletter

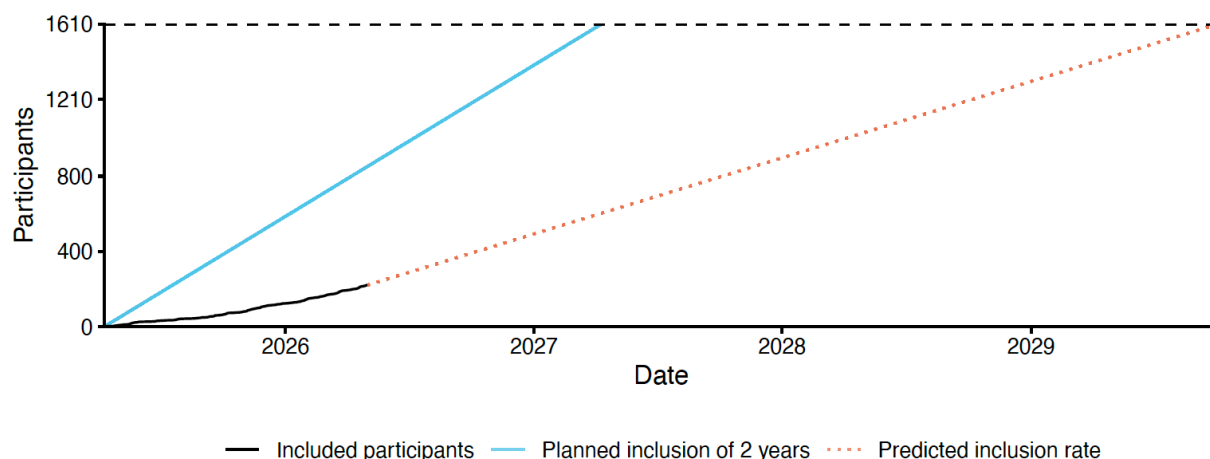

**Randomisations:  
221**

Dear Investigators,

This is the SafeBoosC-IIIv newsletter, which we will send out regularly and publish on the website (safeboosc.eu) to keep you continuously updated. We will send the newsletter to all Principal Investigators and National Coordinators. Please let us know if you wish to add an email address to the list.

We are pleased to announce that we have currently randomised 221 participants. In April, the first Polish centre, Instytut Matki i Dziecka in Warszawa, led by Agnieszka Drozdowska-Szymczak began randomisation. We have now opened for randomisation in Spain, Romania, Austria, Greece, the United States, India, and Poland.

Please see the current rate of inclusion below:

Overview of the enrollment rate.

## Substudy meeting

Thank you very much for your participation in the SafeBoosC-IIIv substudy meeting in April, and for the interesting presentations and important discussions. Dr Kosmas Sarafidis presented a substudy on cerebral oximetry for frequency of early cardiovascular interventions. Dr Johanne Juul Petersen presented a substudy on the environmental impact of treatment guided by cerebral oximetry versus usual care. Please find the minutes attached.

## Principal Investigator status

In total, 20 centres have completed all the required preparatory steps and are ready for randomisation. Overall, we are in contact with almost 80 centres from 22 countries. Please see the attached list for the latest progress from all centres and let us know if you have any updates.

Please contact us if you have any questions about the process. We are also available for online meetings to support you in the process.

Best wishes,  
Caroline, Johanne, and Janus

| Country        | Centre                                                                                   | Ethics approval | Signed collaboration agreement | Approved blinding procedure | Local monitoring initiation visit | Delegation log | Randomisations |
