

SafeBoosC-IIIv Newsletter

Dear Investigators,

This is the SafeBoosC-IIIv newsletter, which we will send out regularly and publish on the website (safeboosc.eu) to keep you continuously updated. We will send the newsletter to all Principal Investigators and National Coordinators. Please let us know if you would like to add an email address to the list.

We are pleased to inform you that we have received interest from countries on six continents and are currently in contact with more than 60 centres.

Central status

We have finalised the eCRF, the [web-based training](#), and updated the website with the last [standard operating procedures](#). Everything you need to complete the five steps before randomisation is now available on the website. Once you have completed all the steps, we will be happy to grant you access to the eCRF so you can begin randomisation.

As a reminder, the steps needed before each centre may start randomisation include:

1. Apply for ethics approval in your own country
2. Sign the collaboration agreement
3. Report blinding method of primary outcome
4. Organise and complete local monitoring initiation visit
5. Complete delegation log

Principal Investigator status

We contacted all centres in the beginning of February with updated information about local preparations for the trial. Please see the list of progress for all centres below and let us know if you have any questions or updates from your centre.

Please do not hesitate to contact us with any questions or updates from your centre.

Thank you and best wishes,
Johanne, Caroline, and Janus

Country	Centre	Signed collaboration agreement	Approved blinding procedure	Ethics approval	Local monitoring initiation visit	Delegation log	Start of randomisation
Argentina	Hospital Universitario Austral, Pilar						
Argentina	Hospital de Pediatría Garrahan, CABA						
Argentina	Hospital de Niños Dr. Ricardo Gutiérrez, CABA						
Argentina	Hospital Italiano de Buenos Aires, CABA
