

SafeBoosC-IIIv Newsletter

Dear Investigators,

This is the SafeBoosC-IIIv newsletter, which we will send out regularly and publish on the website (safeboosc.eu) to keep you continuously updated. We will send the newsletter to all Principal Investigators and National Coordinators. Please let us know if you wish to add an email address to the list.

We are pleased to announce that we have currently randomised 62 participants. The first Indian centre, St John's Medical College Hospital, led by Principal Investigator Shashidhar A and National Coordinator Saudamini Nesargi, has begun randomisation. Another Greek centre is ready to begin randomisation. We have now opened for randomisation in Spain, Romania, Austria, Greece, and India.

jENS 2025 Investigator Meeting

We have scheduled an investigator meeting at jENS 2025 in Belgrade, Serbia, on 24 October from 8:30 to 10:30. Please contact Caroline Kamp at caroline.kamp@ctu.dk if you would like to participate. Interested clinicians and researchers are also welcome to participate. For those unable to participate in the investigator meeting, it will be possible to arrange individual meetings on Thursday or Friday.

Substudy meeting

We are planning another substudy meeting and hope to see more substudy proposals utilising the SafeBoosC-IIIv data. Please contact Caroline Kamp if you or your colleagues have an idea for a substudy. We would be happy to assist you in developing the substudy.

Protocol paper and statistical analysis plan

We have submitted the protocol paper to *Trials*. We have sent the statistical analysis plan to the author group, and the manuscript will also be submitted to *Trials* at the end of October.

Principal Investigator status

In total, 12 centres have completed all the required preparatory steps and are ready for randomisation. Overall, we are in contact with almost 80 centres from 23 countries. Please see the attached list for the latest progress from all centres and let us know if you have any updates.

Please contact us if you have any questions about the process. We are also available for online meetings to support you in the process.

Please do not hesitate to contact us with any questions or updates from your centre.

Thank you and best wishes,
Caroline, Johanne, and Janus

Country	Centre	Ethics approval	Signed collaboration agreement	Approved blinding procedure	Local monitoring initiation visit	Delegation log	Randomisations
Argentina	Hospital Universitario Austral, Pilar						
Australia	Grace Centre for Newborn Intensive Care in The Children's Hospital at Westmead, Sydney
