

Scope of research	Work Packages	Principle and co-investigators	Study 1 - 18
PROGRAM MANAGEMENT	WP 0 Program Management and Dissemination MJ	Mary Jarden (MJ) * CKO and PROSPER management group (WP leaders)	Organization, management and collaboration, dissemination incl. public and scientific platforms
SYMPTOM KNOWLEDGE TRANSLATION AND EDUCATION	WP 1a – umbrella projects Knowledge Transfer and application JC	Jan Christensen (JC) Mary Jarden (MJ) Ingrid Egerod (IE) Suzanne Forsyth Herling (SFH)	1. PROSPER Knowledge Translation (KT) and educational platform for health professionals (SFH) and Database (JC) 2. Systematisk Review (JC, ASM)
	WP 1b - cross-cutting projects -Person-centred outcome research -Education SFH	Karin Piil (KP) Suzanne Forsyth Herling (SFH)	3. Patient and Public Involvement (KP) 4. PROSPER-Educational Project (EP) from bachelor to postdoc (SFH) 5. Criteria for precision symptom management model (MJ, IE)
SYMPTOM COMMUNICATION	WP 2 Symptom care and communication ASM	Karin Piil (KP)* CKO, Anne Sophie Mathiesen* CKO Emilie Marqvorsen JMC, Vibeke Zoffmann* JMC	6. Precision symptom care and communication in patient-provider relationships (VZ, KP, ASM, EM)
SYMPTOM SELF-MANAGEMENT	WP 3 Symptoms and late effects in chronic health conditions BAE	Bente Appel Esbensen (BAE)* HOC Ditte Gertz Mogensen HOC, Mary Jarden CKO*	7. Self-management of symptom clusters in people with Inflammatory arthritis – “SCOTIA” (BAE) 8. Post-COVID-19 Olfactory Dysfunction: Impact on Quality of Life, Patient Characteristics, and the effect of Olfactory Training (DGM)
	WP 4 Multiple symptoms in post-surgical settings MM	Malene Missel (MM)* HJE Mai Nanna Schønau (MNS) HJE Anne Sophie Mathiesen* CKO, Emilie Marqvorsen JMC, Vibeke Zoffmann* JMC Camilla Hedegaard Larsen HOC, Mary Jarden* CKO	9. Improving Supportive Care for Patients Surgically Treated for Non-Small Cell Lung Cancer – symptom assessment and approaches to symptom (self)management (MM, MNS) 10. Symptoms in youths surgically treated for long-term health conditions and their relatives, (EM, VZ) 11. Wireless continuous vital sign monitoring in hospitalized patients in an orthopedic setting – a multi-method study (CHL, MJ)
SYMPTOM MECHANISMS, MEASUREMENT, MANAGEMENT	WP 5 Pain, fatigue and cognitive symptoms in acute and long- term care GK	Jan Christensen* HOC, Charlotte Grønset HOC, Mary Jarden* CKO Karin Piil*, Linda Kahr Andersen, John Vissing, Katrine Løppenthin CKO Marie Oxenbøll Collet, Ingrid Egerod* CKO Geana P Kurita (GK)* CKO, Suzanne F. Herling* NEU	12. Counteracting sarcopenia in patients with malignant lymphoma undergoing chemotherapy treatment (JC, CG, MJ) 13. Exploring the Multifaceted Nature of Fatigue Phenotypes Across Diagnoses and Disease Trajectories: Insights into Physical Inactivity, Sleep Impairments, and Quality of Life (KP, KL) 14. Early cognitive rehabilitation for the improvement of long-term outcomes in Intensive care patients (MOC, IE) 15. Pain prevalence and management in neurologic and neurosurgical inpatients – the PAINN Study (GK, SFH)
	WP 6 Physical and psychological symptoms related to sexual health and pregnancy HH	Kristina Nørskov, Mary Jarden*CKO Hanne Hegaard (HH)*, Mette Linnet Olesen, Thea Guldman, JMC Hanne Hegaard*JMC, Nina Olsén Nathan	16. Sexual health in patients with hematologic malignancies – symptom assessment and management (KN, MJ) 17. Symptom burden, support, and care for women and partners during and after an early pregnancy loss – the SEEN research program (HH, MLO, TG) 18. Symptoms, biomarkers, and experiences among pregnant and postpartum women with migraine – a longitudinal prospective study (HH)
