Winnie Palmer Women's Hospital

Winnie Palmer er blandt UAS største fødesteder 12.000 til 15.000 fødsler om året og ligger i tilknytning til Arnold Palmer Medical Center

*Arnold Palmer Medical Center has been recognized as a
“Best Children’s Hospital” in 8 Pediatric Specialties*

About Us

Winnie Palmer Hospital for Women & Babies is the only hospital in Central Florida built for women and led by women. An extraordinary Orlando Health facility, we are home to leading physicians, surgeons and specialists, as well as one of the nation's largest and most successful neonatal intensive care units. Our physicians provide specialized care that covers all facets of women's health, from comprehensive gynecological services and minimally invasive surgeries to obstetrics and high-risk pregnancies and births.

- Winnie Palmer Hospital has one of the most experienced labor and delivery units in the nation, delivering 12,000-15,000 babies every year.
- Our Neonatal Intensive Care Unit is the fourth largest in the United States.
- We are a Regional Perinatal Intensive Care Hospital for the State of Florida, whereby high-risk obstetrical patients and their infants are referred to our specialists.
- Winnie Palmer Hospital is part of Arnold Palmer Medical Center, which includes Arnold Palmer Hospital for Children and the Howard Phillips Center for Children & Families, and is the largest facility dedicated to children and women in the United States.
- The two-story sky bridge that connects us to Arnold Palmer Hospital allows for easy patient transport and efficient sharing of physician and diagnostic resources.

Cirkelformationer

Sengestuer i cirkelformation

Cirkelformationen giver et super godt overblik i sygeplejestationen og kort afstand til alle funktioner, men udfordring ift. lys.

Anvendelig ved mange korte kontakter mellem patient og personale, ex. igangsættelser

Hospitalstuer som hotelstuer med indbygget operationslys

Patientundervisning på tv 24/7

Indbygget operationslys, der kan styres med et joystick

Vægpanel der styrer SKYTRON-lyset ->

Isolation

Mobil isolations rack skaber fleksibilitet og tydelighed

Overblik over aktivitet

Interaktiv farvekode, must have!

Kontrolpanel monteret på væggen

Medicinskab

Forefindes mange steder, men kræver yderligere afdækning ift. opfyldning og akutte situationer

Der findes forskellige som tilgås på forskellige måder ex. via kort, fingeraftryk eller kode

Cows and wows on wheels

Dette er ROBOTDOC, der anvendes telemedicinsk, bl.a. til second opinion fra en læge, der ikke er til stede i bygningen.

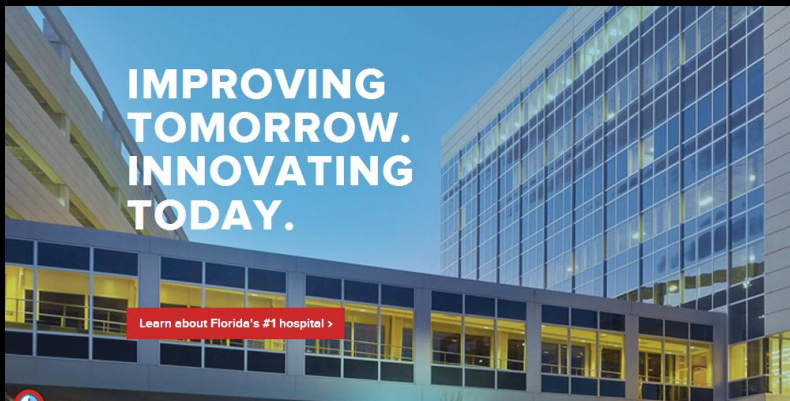

Arbejdsstationer om Wheels

Tolkevogn on Wheels

Florida Hospital

Samarbejde med Philips om lyssætning og lyd

Lyssætning - opholdsmråder

Familie opholdsrum

Lyssætning - familie opholdsrum

Lyssætning - sygeplejestationer

Lyssætning - gangarealer

Vægdekorationer med lydbilled

Lyssætning -akutmodtagelse

Med
beroligende lyd

<- Mulighed for at vælge forskellige temaer

Visuelle behandlingsplaner på alle stuer

Eksemplerne er fra forskellige hospitaler.

Vi så dem alle steder, og de var glade for dem,

A detailed visual treatment plan form with a red header is shown. The header includes the text 'If you are thinking it... ask it. Please ask us how we can help you and we will do our best to help you.' The form is titled 'Visual Treatment Plan' and includes a section for 'Pain Plan'. It features a grid for tracking and a section for 'Pain Plan' with a clock face. The form is titled 'Visual Treatment Plan' and includes a section for 'Pain Plan'.

Shaded dører

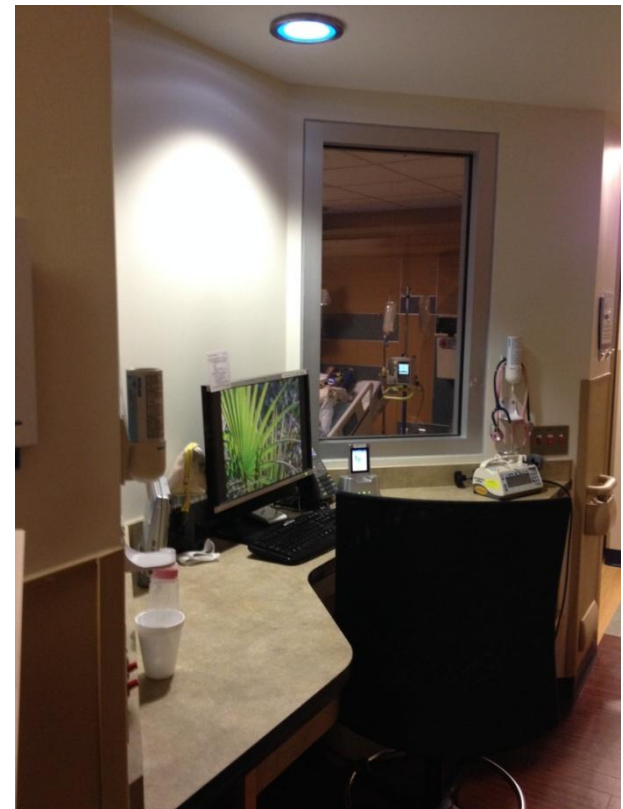

Dørerne kan blændes via en kontakt.
Det er gas, der er mellem glassene

Lyssætning - intensivområder

Mulighed for at overvåge
patienten fra arbejdsstation på
gangen

Lysindfald til et meget smukt opholdsrum

Nemour Children's Hospital

Om Nemours Children's Hospital

Our Promise: Giving Your Family Exceptional Pediatric Care

Nemours Children's Hospital in Orlando brings pediatric specialty care never before offered in Central Florida. Our hospital even includes the area's only 24-hour [Emergency Department](#) designed just for kids.

Many of our board-certified specialists have come from top hospitals around the country because they share our desire to create a pediatric health care facility that empowers patients and their caregivers.

At Nemours Children's Hospital you can expect:

- all levels of care — from minor injuries to the most complex conditions
- innovative pediatric medicine with specialized [medical and surgical services](#)
- patient rooms designed by families, for families
- electronic health record technology that's ranked among the best in the country
- [KidsTRACK](#) care coordination to help manage your family's health care journey
- a "hospital in a garden" with green spaces for healing, respite and therapy
- onsite amenities such as free valet parking and concierge services
- expert care in your community through our [specialty and primary care network](#)

Located in Lake Nona: Closer Than You Think

Our hospital is in Orlando's Lake Nona, just minutes from Orlando International Airport.

Bygget af familier til familier

Farverne skifter

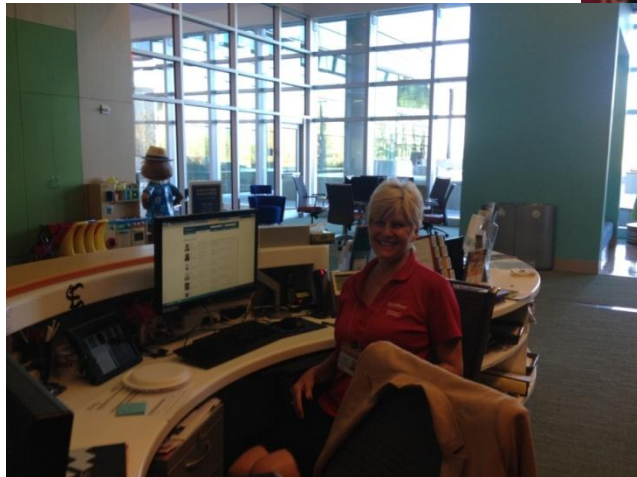

Meget organiseret
modtagelse, billeder af
alle besøgende

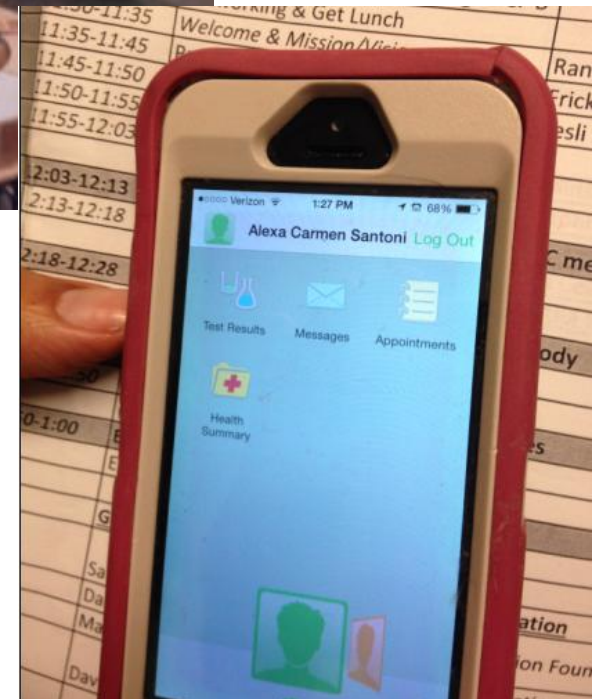

Det var meget lyst og imødekommende,
Tema: have og blomster

Kids Track & My Nemour

Kids Track koordinerer børnenes udrednings og behandlingsforløb, transition fra hospital til hjem samt uddannelse og skole

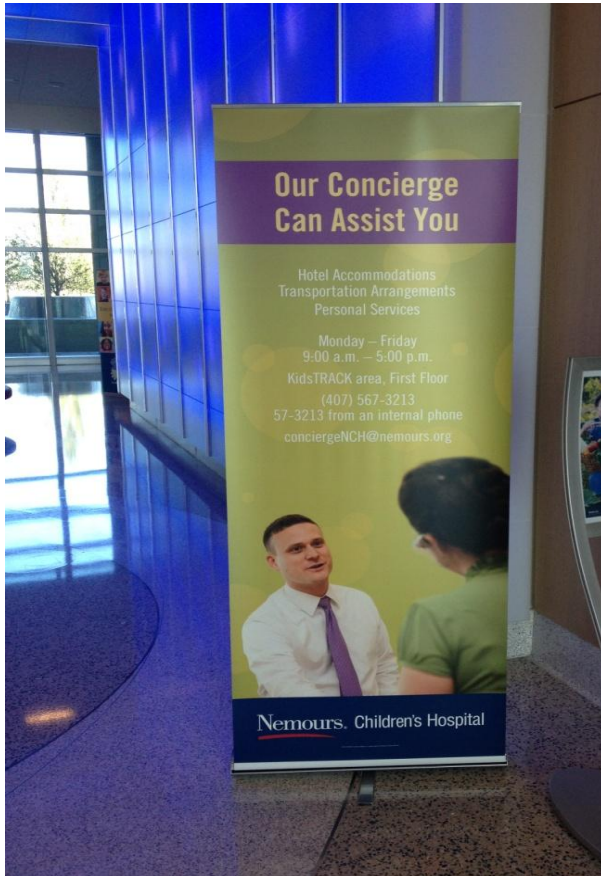

My Nemour ->
er en App det gør
det muligt at følge
barnets aftaler og
øvrige kontakter til
hospitalet

Frivillige og Concierge

Frivillige
indeholder et
stort
potentiale, som
må afdækkes

Ambulatorieområder

Modtagelsesskranke i børnehøjde

Til tiden, der er ikke mange der venter i venterummet

Meget små ambulatorierum uden vinduer til gengæld et smukt lysindfald i ventearealerne

Sengeområder

Meget ro og ingenting efterladt på gangene
Lamper i loftet viser om rummet er optaget

Intensivområder

Intensiv-stuer til tvillinger

Haver

Hverdagsliv/familieliv

Legerum sponsoreret af sportsfolk

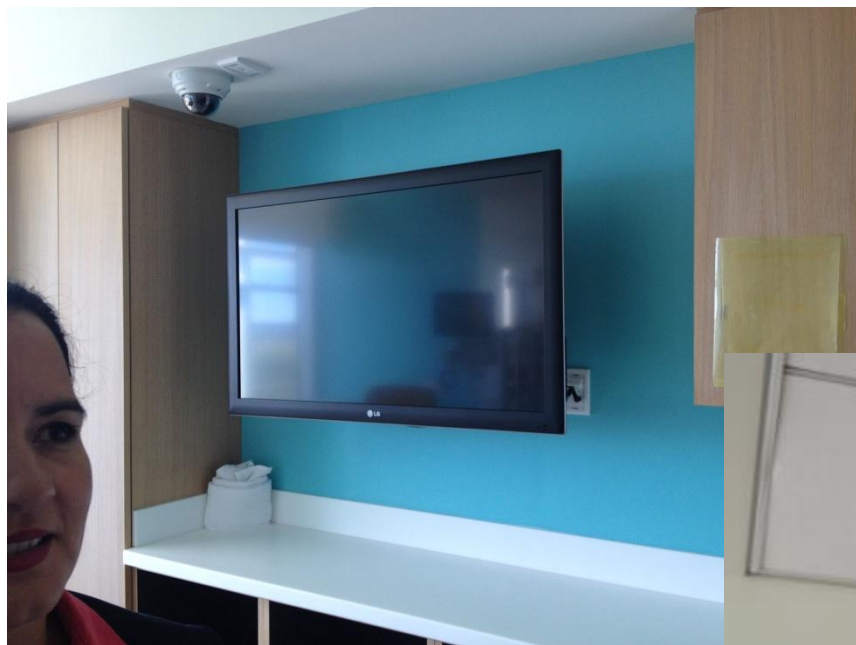

Madkoncept og smukke spisefaciliteter

Overvågning af patienter via video og data

Mulighed for at anvende Epic i uddannelse, ift træningsmoduler på stuerne med de eksisterende kameraer

<- Denne lille sensor i loftet gør at lægen kan identificeres når han træder ind i rummet, hans billede kommer op på skærmen

Overvågning af patienter via video og data

Mulighed for at anvende Epic i uddannelse, ift træningsmoduler på stuerne med de eksisterende kameraer

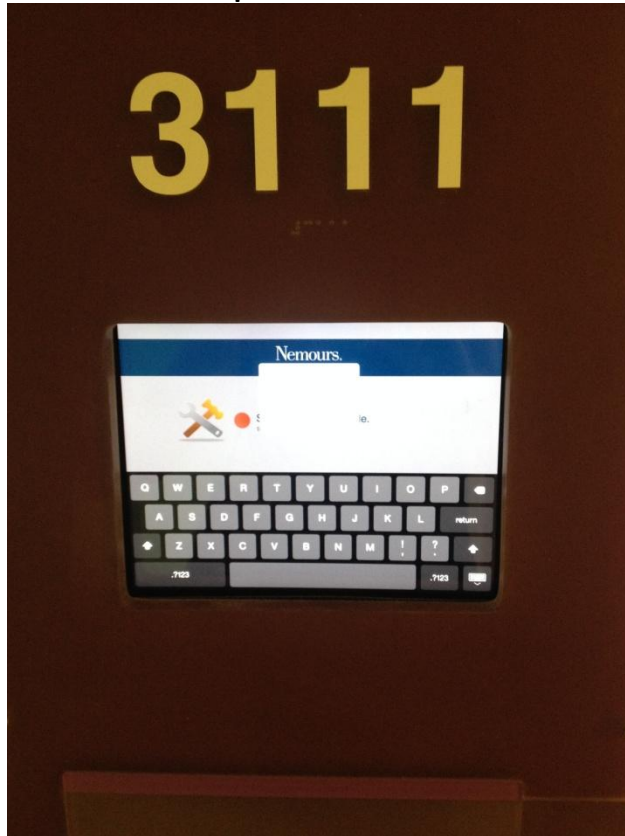

Vi måtte ikke tage billeder bag disse dører, hvor der sidder 7 paramediciner og overvåger patienternes vitale værdier

<- The Logistics Center
Overvåger patienterne visuelt og ift. 3 nøgleproblemstillinger:
sepsis, centrale venekatetre og urinvejsinfektioner.
Fjernovervåger patienter på andre hospitaler

Overvågning af patienter via video og data

Teknologi for teknologiens skyld – vi kender ikke det fulde formål med disse iPads der sat uden for hver patientstue , men det blev bl.a. anvendt til at forbedre kommunikationen med patienterne

Baton Rouge Women's Hospital

Facts om Baton Rouge

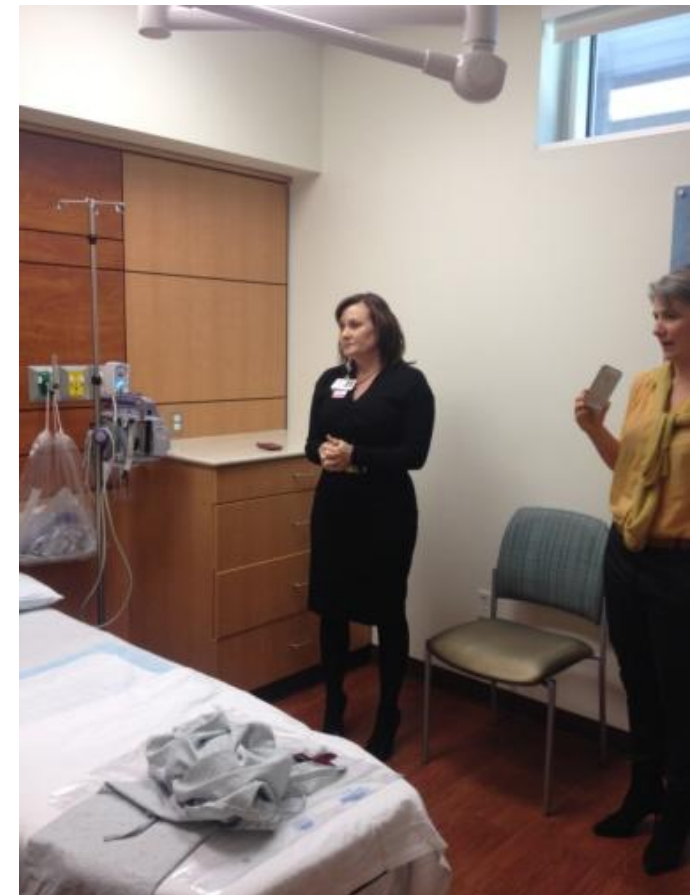

Woman's at a Glance:

- Licensed adult hospital beds: 168

- Annual breast procedures: 44,000

Stjerneform

Ankomst/modtagelse

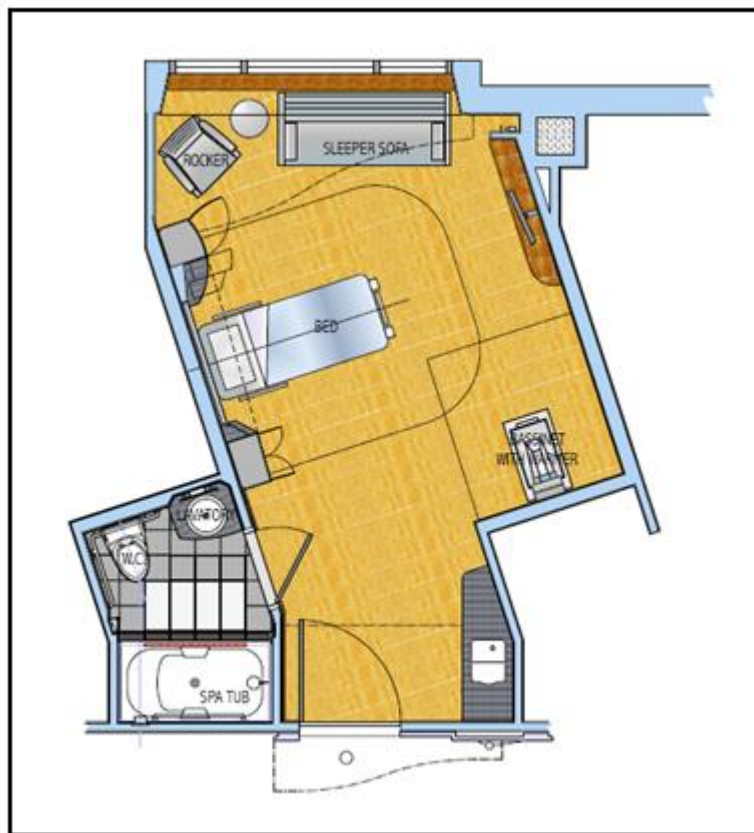

Fødestuer

<- Under buen er der plads til familien

Udformning af fødeestue

Føde- og barselsstuen er udformet så sengen er vinklet væk fra døren.
Blevet til under en workshop
Megen involvering af personale og patienter

Carts med færdigpakket fødeudstyr

<- Vognen er plomberet
og gemt inde i skabet

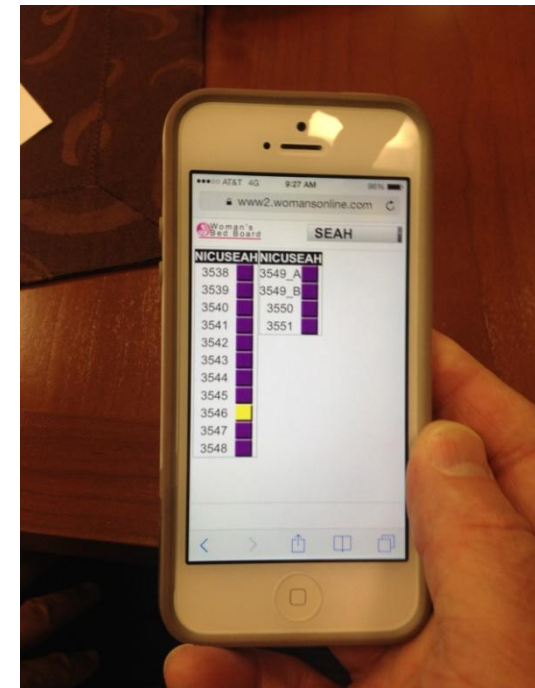

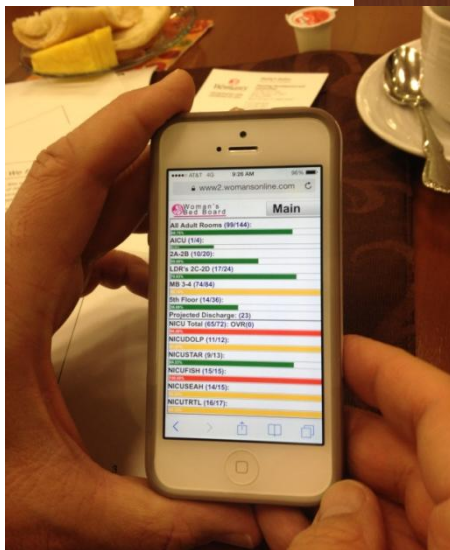

Vognen indeholder alt det kit der
skal bruge under fødslen

Videokonfernce fra stuen

Kapacitetsdata

Overblik over sengekapacitet og status.
Belagte senge, senge under rengøring mv.

Sterildepot

Elektronisk can ban system, der både sikrer genbestilling og at patienterne faktureres
